furry fandom an adult social group interested in anthropomorphic animals in art literature and culture has grown since the 1980s to include an estimated 50 000 furrries their largest annual convention drew more than 6 000 attendees in 2015 including 1 000 dressed in fur suits or mascot type animal costumes conventions typically include awards organizations art literature and movies encompassing a wide range of creative pursuits beyond animal costuming this study of the furry subculture presents a history of the oft misunderstood group and lists all conventions

around the world from 1989 through 2015 including organizers guests of honor and donations to charity

this book is the first text to provide a comprehensive assessment of the application of fundamental principles of dissolution and drug release testing to poorly soluble compounds and formulations such drug products are vis à vis their physical and chemical properties inherently incompatible with aqueous dissolution however dissolution methods are required for product development and selection as well as for the fulfillment of regulatory obligations with respect to biopharmaceutical assessment and product quality understanding the percentage of poorly soluble drugs defined in classes 2 and 4 of the biopharmaceutics classification system bcs has significantly increased in the modern pharmaceutical development pipeline this book provides a thorough exposition of general method development strategies for such drugs including instrumentation and media selection the use of compendial and non compendial techniques in product development and phase appropriate approaches to dissolution development emerging topics in the field of dissolution are also discussed including biorelevant and biphasic dissolution the use on enzymes in dissolution testing dissolution of suspensions and drug release of non oral products of particular interest to the industrial pharmaceutical professional a brief overview of the formulation and solubilization techniques employed in the development of bcs class 2 and 4 drugs to overcome solubility challenges is provided and is complemented by a collection of chapters that survey the approaches and considerations in developing dissolution methodologies for enabling drug delivery technologies including nanosuspensions lipid based formulations and stabilized amorphous drug formulations

with a focus on environmentally friendly rice farming this unique book integrates both ecosystem and human dimensions of ecological

restoration to provide strategies to promote sustainable agriculture and rural development paddy fields have multiple functions beyond their role of producing rice they serve as refuge habitats for a range of wildlife that once inhabited floodplain wetlands and contain a number of unique and threatened aquatic species they also provide various ecosystem services for regional communities such as water retention erosion control flood control fish culture and educational opportunities however rice paddies are threatened worldwide due to the modernization of agriculture and abandonment of farmland caused by depopulation and the aging of rural communities therefore multiple ecological and sociological aspects must be considered in the ecological restoration of paddy fields this book aims to do so by incorporating various disciplines of natural and social sciences strategies for sustainable agriculture are reviewed including financial incentives for farmers and the use of flagship wildlife species such as the crested ibis toki to promote ecological restoration with the increasing popularity of environmentally friendly rice farming in parts of asia and the western united states this book offers model cases for sustainable management of paddy dominated landscapes

doctoral thesis dissertation from the year 2018 in the subject politics topic peace and conflict security grade a atlantic international university course doctor of international relations with a major in international security language english abstract this paper is an attempt to deconstruct the concept of security which has been by tradition exclusively confined to the military realm we make evident that security takes into consideration a number of fields and that its major concern is the human person in addressing security in this work we do not only refer to the security of states the concept of national security but also to that of individuals human security governments should integrate in their security agendas not only their own security but also the security of their nationals accordingly this implies that they should protect their citizens against any threat to human life in other words governments or the people they rule do not merely face military threats from other states they are as well endangered by other threats to their security these threats are debated in this research paper we do not mean that military issues are not to be conceptualized within security frameworks but we do contend that they are not the unique issues to be securitized indeed this paper displays that other issues should be securitized
